

# Class...expect it.

36 & 50 ft.  
Berths  
Available!

## Find it at Willow Berm Marina

A lush tropical paradise awaits you at Willow Berm Marina. Once you enter the private island, you arrive 'home' to a luxuriously appointed yacht harbor with amenities not found elsewhere. There is guest docking for yachts up to 200' with 480V, 3 Phase electrical available, and covered berths to 80' with side ties to 100'.

When you meet Eldon and Dawn Bell, you would be surprised to find out that the beautiful "Kimberly Wallace", a 53' Carver Pilot House is their first boat!

### Member Profile

In the Fall of 2007, they went for a cruise with Eldon's brother, Ray, and absolutely fell in love with boating. They knew then and there that they had to have their very own. They began the search and in no time at all Dawn found the perfect yacht. "Kimberly Wallace" (a combination of Dawn and Eldon's middle names) was christened and brought home to Willow Berm in November 2007.

The Bells customized the interior to suit their tastes, with one of the biggest improvements being the sound system. Being a musician himself, Eldon wanted to be surrounded with the best sound system possible. The interior is lovely with plenty of room for entertaining family and friends. Dawn loves the view from the Pilot House and especially loves that she has all the conveniences of home on her yacht. Having been in the trucking business for many, many years, Eldon was a natural at learning to navigate such an enormous yacht but has a humble appreciation for its power and magnitude. Eldon loves the feeling that he gets when sitting on the Fly Bridge where he feels like he is "on top of the world".

Even though Eldon and Dawn work full time and have four grown children, they make time to use their boat as much as possible. They belong to the Stockton Yacht Club and enjoy the camaraderie and helpfulness of all of their yacht club friends. Just recently they took a two week bay cruise where they visited many marinas and experienced the awesome feeling of taking their yacht under the Golden Gate Bridge! Eldon had butterflies in his stomach when his depth finder hit 460', but loved the thrill!

In the future when they retire, they hope to take a long cruise out of the bay, up and down the California Coast and beyond. In the meantime, they are happy and content to relax in the Delta at Willow Berm Marina, their "home away from home".

## Our charming lighthouse landmark leads you home to:
